

March 13, 2020 3:00pm

At 10C we care about your health and safety.

The message from Wellington-Dufferin-Guelph Public Health is that the [risk of infection to residents in Wellington Dufferin and Guelph is currently considered low](#). We are therefore making every effort to avoid disruption in our programming and services at this time. We are looking at this on a daily basis.

COVID-19 > SELF-ASSESSMENT

We ask that you self-assess prior to entering this shared community space.

?	Have you (or a member of your household) traveled outside of the country (including layovers) in the last 14 days?
?	Have you (or a member of your household) had close contact (2 meters for approximately 30 minutes or more) with a person who has been diagnosed with COVID-19?
?	Have you been contacted by WDG Public Health to be tested?
?	Are you feeling ill? Mild fever, dry cough, sore throat.

If you answer YES to any of these, please do not enter 10C.

When onsite at 10C, please wash your hands.

10C has increased disinfecting at high touch points, washrooms, door handles, elevator buttons, automatic door operator plates, toilet flush handles, faucets and table tops.

There is also **hand sanitizer** available throughout the building. Please practice social distancing, and avoid direct skin-skin contact (i.e. handshakes, hugs, kisses) with each other. **We will get back to hugs and high-fives when we get to the other side of this pandemic.**
